Evangelina Serrano  
McGrayel Company, Inc.  
5361 S. Villa Avenue  
Fresno, CA 93725

Subject: Label Amendment – Revise label format and adding additional marketing claims  
Product Name: Watertec  
EPA Registration Number: 46978-4  
Application Date: 01/18/2018  
Decision Number: 537918

Dear Ms. Serrano

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Page 2 of 2  
EPA Reg. No. 46978-4  
Decision No. 537918

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Stacey Grigsby by phone at 703.305.6440, or via email at [grigsby.stacey@epa.gov](mailto:grigsby.stacey@epa.gov) .

Sincerely,

A handwritten signature in black ink that reads "Stacey Grigsby". The signature is written in a cursive, flowing style.

Stacey Grigsby

Enclosure: 4/26/2018 Accepted Stamped Label

**SUMMER TREATMENT CHART:**

Pool, Spa, And Fountain Size in Gal./Litres	SUMMER TREATMENT		
	INITIAL DOSAGE		WEEKLY DOSAGE
	CLEAN	VISIBLE ALGAE	
10 Gal. (38.1 litres)	.2 oz (1 drop)	4 ml (2 drops)	.2 oz (1 drop)
100 Gal. (383 litres)	.2 oz (.6 ml)	4 oz (112 ml)	.2 oz (.6 ml)
250 Gal. (946 litres)	.5 oz (15ml)	1.0 oz (30 ml)	.5 oz (15 ml)
10,000 Gal. (38,000 litres)	8 oz (240 ml)	24 oz (710 ml)	4 oz (120 ml)
20,000 Gal. (76,000 litres)	16 oz (475 ml)	48 oz (1420 ml)	8 oz (240 ml)
25,000 Gal. (95,000 litres)	24 oz (680 ml)	60 oz (1770 ml)	12 oz (340 ml)

*NOTE: Use higher weekly dosage for heavily used larger water features.*

**DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with this labeling.

**WATERTEC® OVERVIEW:**

Watertec® is a synergistic algicide, water clarifier and chlorine booster for all types of swimming pools, spas, hot tubs, fountains, water gardens, tabletop fountains and birdbaths. Watertec helps improve water quality and swimmer comfort in swimming pools, spas and hot tubs. As an algicide, Watertec kills green and yellow algae in 4 to 24 hours and eradicates black algae (fungus) in 7 to 10 days. Watertec also strongly prevents algae growth in swimming pools, spas, hot tubs, fountains, water gardens, tabletop fountains and birdbaths. Watertec® clarifiers flocculate to create ultra-clear water in swimming pools, spas, hot tubs, fountains, water gardens, tabletop fountains and birdbaths. Its synergy with swimming pool, spas and hot tub sanitizers helps boost chlorine and bromine effectiveness while reducing sanitizer usage between 25% to 65%. Watertec is compatible with all salt cell systems and helps improve salt cell performance.

**SUMMER WEEKLY POOL MAINTENANCE:**

- To start, add Watertec® "Clean" dosage to balanced pool water. This product must be used with a registered sanitizer.
- Thereafter, add "Weekly Maintenance" dosage - use higher dosage for algae prone or heavy used pools.

**ALGAE CLEANUP - ALL POOLS:**

- To start, pools containing heavy algae growth should be cleaned of excess debris.
- Super chlorinating pool water and adjusting water pH will help improve cleanup.
- Operate pool filter pump during entire cleanup period which is typically 4 to 24 hours.

**POOL SIZE**

POOL SIZE (in gallons and litres)	ALGAE CLEANUP DOSAGES		
	Amount of Algae Growth		Weekly Maintenance
	Minimal	Heavy	
10,000 Gal. (38,000 litres)	8 to 16 oz (240 to 475 ml)	16 to 24 oz (475 to 710 ml)	24 to 32 oz (680 to 1000 ml)
20,000 Gal. (76,000 litres)	16 to 32 oz (475 to 950 ml)	24 to 48 oz (710 to 1400 ml)	48 to 64 oz (1400 to 1920 ml)
25,000 Gal. (95,000 litres)	24 to 40 oz (710 to 1185 ml)	40 to 60 oz (1185 to 1920 ml)	60 to 80 oz (1770 to 2400 ml)

**GREEN ALGAE:**

- To kill GREEN algae, add Watertec® "Visible Algae Dosage" - use higher dosage for heavier algae growths.
- It is important to brush all yellow algae clinging to pool walls and surfaces.
- After cleanup period, re-test pool water and balance chlorine and pH as needed.
- Clear filter unit and/or backwash as required.
- Add Watertec® weekly to help prevent the re-growth of algae.

**YELLOW OR MUSTARD ALGAE**

- To kill YELLOW algae, add Watertec® "Visible Algae Dosage," use higher dosage for heavier algae growths.
- It is important to brush all yellow algae clinging to pool walls and surfaces.
- Add a shock level of chlorine (liquid or dry) to assist in the cleanup process. Follow manufacturer instructions. Adjust water pH to insure proper effectiveness of chlorine.
- After cleanup period, re-test pool water and balance chlorine and pH as needed.
- Clear filter unit and/or backwash as required.
- Add Watertec® weekly to help prevent the re-growth of algae.

**BLACK ALGAE - FUNGUS:**

- To kill BLACK algae, add Watertec® "Visible Algae Dosage" - use MAXIMUM cleanup dosage.
- Use a combo or wire brush and frequently scrub growth for 7 to 10 days until growths are eradicated.
- Broadcast granular chlorine over affected areas to help penetrate and kill growth. Use a type of chlorine that is safe for your or pool finish. In addition, super chlorination of pool water will also help further improve cleanup. Follow manufacturer instructions.
- During cleanup period, check and test pool water frequently. Balance chlorine and pH as needed to maintain adequate chlorination.
- Clear filter unit and/or backwash as required.
- Operate pool filter pump at least 6 to 8 hours daily during cleanup.
- Add Watertec® weekly to insure eradication of black algae - fungus.

**WINTER TREATMENT CHART:**

Pool Size in U.S. Gallons and Litres	WINTER LAYUP TREATMENT		
	INITIAL DOSAGE		*MAINT. DOSAGE EVERY 60 DAYS
	CLEAN	VISIBLE ALGAE	
10,000 (38,000 litres)	24 oz (680 ml)	40 oz (1200 ml)	24 oz (680 ml)
20,000 (76,000 litres)	48 oz (1400 ml)	80 oz (2400 ml)	32 oz (910 ml)
40,000 (150,000 litres)	96 oz (2850 ml)	160 oz (4,7 litres)	64 oz (1900 ml)

*Covered pools: only the "initial dosage" is required. \*Mesh pools: double initial dosage.*

Watertec® keeps winter pool water clean, clear and free of algae from fall to spring with little or no chlorine. Watertec® provides strong, long lasting protection throughout the non-swim season. Unlike other winterizing kits, Watertec's protection is unaffected by evaporation, sunlight or temperature making it ideal for covered, mesh and even uncovered pools. This protection keeps pool water properly treated preventing spring algae cleanup, expense and pool startup hassles. With Watertec®, all you need to do in the spring is to dive in!

**WINTER MAINTENANCE:**

- Pool water must be clean and free from algae growths. Pools with visible algae MUST follow summer cleanup instruction before closing pool.
- Adjust pool water pH to between 7.2 and 7.8 and adjust pool alkalinity to proper levels.
- Close pool with normal chlorine residuals. Shocking pool water may be helpful or necessary.
- Add the correct Watertec® initial dosage under "Clean" or "Visible Algae" for your pool size.
- Cover pool if desired or follow uncovered pool instructions.

**Covered Pools** - Add "initial dosage" for your pool size.  
**Mesh Pools** - Double the "initial dosage" for your pool size.  
 Thereafter, "maintenance dosage" every 60 days until spring.

In general, Watertec® is compatible with chemicals normally used to treat swimming pools. Do not mix Watertec® directly with concentrated dry or liquid chlorine products. Watertec® does not change water pH and is non-foaming and non-staining. Swimmers can use swimming pool or spa immediately after treatment.

If we can assist you, please call customer services toll-free, 24 hours at 1-800-289-7660 or call USA direct at 1-559-299-7666. Email: customerservice@easycarewater.com.

**Synertec® Concentrated Formulation**

**EASYCARE WATERTEC®**

**Tough Algae Controller**

- Kills & Prevents Algae Growths • Non-Foaming & Non-Staining
- Keeps Water Crystal Clear • Treats Over 20,000 U.S. Gallons

**The 3-in-1 Algicide, Clarifier and Chlorine Booster**

**SUMMER - KEEPS POOL WATER CLEAN, CLEAR AND ALGAE-FREE**

Unique chlorine synergy improves water quality, clarity and swimmer comfort with less chlorine. Reduces skin and eye irritation. Kills green, yellow and black algae quickly.

**WINTER - NON-CHLORINE TREATMENT PROVIDES LONG LASTING PROTECTION**

Little or no chlorine needed. No spring cleanup. Ideal for covered, mesh and uncovered pools.

**The Easiest Way To Eliminate Green, Yellow and Black Algae**

Kills green and yellow algae within 4 to 24 hours (black algae takes 7 to 10 days). Fast cleanup action with strong chlorine synergy (no chlorine loss). Prevents algae growths and keeps pool water crystal clear. Contains no metals, bromide or quats. Non-staining and non-foaming.

**Maintains Spa Water Cleaner, Clearer and Algae-free**

Creates pristine spa water quality and bather comfort  
 Organic polymers are easier on you and your family.  
 Reduces skin and eye irritation and discomfort.  
 Contains no silver or copper staining metals.

Kills and inhibits green, yellow and black (fungus) algae  
 Synergizing action with sanitizers such as chlorine and bromine quickly removes algae  
 Non-staining, non-foaming, and non-metallic.  
 Boosts chlorine and bromine effectiveness and reduces usage from 25% to 65%.  
 Reduces sanitizer usage from 25% to 65% and shocking frequency  
 Protects covered, mesh and uncovered pools from fall to spring  
 Creates pristine spa water quality and comfort  
 Keeps spa water clean, clear and free of algae with less bromine  
 Exclusively designed for bromine, chlorine, salt water and ozone treated spas

**ACCEPTED**  
 04/26/2018  
 Under the Federal Insecticide, Fungicide and Rodenticide Act, registered under the pesticide registration number: 49878-4.

**KEEP OUT OF REACH OF CHILDREN**  
**CAUTION** See Side Panel For Additional Precautionary Statements  
**64 FL. OZ. (2 QTS.) 1.89 LITERS**

**ACTIVE INGREDIENTS:** Poly (oxyethylene(dimethyliminio)-ethylene (dimethyliminio)-ethylene dichloride), ..... 30%  
**INERT INGREDIENTS:** ..... 70%  
 Total weight ..... 100%  
 This product contains 2.67 lb. of active ingredients and weighs 8.0 lb. per gallon

**FOR FOUNTAINS, WATERGARDENS, BIRDBATHS AND TABLETOP FOUNTAINS**

Watertec® keeps water continuously clear and quickly kills and prevents all types of algae including fibrous green strands of algae.

**BEFORE YOU START:** The most effective use of Watertec® is best achieved when fountain, birdbaths, tabletops and water garden equipment has been checked and working properly.

**WEEKLY MAINTENANCE:**

- To start, add Watertec® "Clean" dosage directly to water feature basin.
- Thereafter, add "Weekly Maintenance" dosage, to keep water free of algae blooms. Use higher dosage for water features prone to algae blooms.
- If algae should reappear, retreat water using algae cleanup dosage.

*Note: occasional small addition of chlorine, non-chlorine shock or house-hold bleach helps remove organic waste and prevent excessive algae growths.*

**ALGAE CLEANUP:**

- To start, water features containing heavy algae growth should be cleaned of excess debris. Drain or flush basin with clean water as needed.
- Add Watertec® "Visible Algae Dosage" - use higher dosage for heavier algae growths.
- Brush algae clinging to surfaces, this is important for faster cleanup. Operate water pump to ensure thorough cleanup.

**For pool fountain surfaces scale and stain-free and looking new, use Protec® Surface Protector.**

**FOR SPAS AND HOT TUBS:**

Watertec® makes it easy for you to keep your spa water consistently treated, clean and ready to enjoy at all times. Watertec® promotes a more natural and relaxing spa water experience that is gentle and soft on your skin and eyes. Watertec® is compatible with all types of spa sanitizers and reduces the use of bromine and chlorine up to 50% and more.

**Spa Maintenance:**  
 Initially, add Watertec® at a rate of 2 1/2 tps (12 ml) per 250 gallons. Weekly, add Watertec at the of 1 1/2 tps to keep spa water refreshingly clean, ultra-clear, free of algae and always ready to enjoy.

**Visible Algae:**  
 Add Watertec® at a rate 5 tsp (25 ml) per 250 gallons. Maintain sanitizer at proper levels (follow label instructions and shock spa water as required).

**PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION:** Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes and clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

**FIRST AID:** IF SWALLOWED: Call the Poison Control Center or doctor immediately. Have person sip a glass of water if able to swallow. Do not induce vomiting unless advised by poison control center or physician. Do not give anything by mouth to an unconscious person. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin with water. IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lens, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling for treatment.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish, aquatic organisms and clams. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

**STORAGE AND DISPOSAL:** Do not contaminate water, food, or feed by storage or disposal. PESTICIDE STORAGE: Keep container closed when not in use. Spills may be slippery. Mop up product with clean water. Do not blend directly with other pool chemicals. PESTICIDE DISPOSAL AND CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Wrap container and put in trash or offer for recycling if available. For information on this product (including health concerns, medical emergencies, or pesticide incidents), call the National Pesticide Information Center (NPIC) at 1-800-858-7378.
